Ranks & Hunter Scale

Awakened are graded once, by mana capacity, on one band — the same band used for hunters, monsters, Gates, and loot. Rank is fixed for life.

Rank	What it means to the trade
E	Newly licensed. The floor — supervised E-Gate combat, or support work (mining/hauling).
D	Competent. Solo E-work, D-Gate team member, or senior support.
C	Experienced. The backbone of a serious raid party.
B	Veteran. Rare enough that in Prague each is a known name.
A	Elite. A public figure, courted by every major guild.
S	Off the scale. A strategic national asset; counted by name (~200 worldwide).

Rarity: roughly 1 person in 5,000 awakens (~1.6M worldwide). Among licensed hunters: E 60% · D 22% · C 11% · B 5% · A ~2%. S-ranks are counted individually — ~200 on Earth.

Region	Awakened	Licensed hunters	S-ranks
Worldwide	~1.6 million	a minority of the awakened	~200
United States	~66,000	~25,000	11 (2 resident in Chicago)
Chicago	—	~1,200	2
Czech Republic	~2,100	~800	1
Prague	—	~350	(the national S-rank)

The World Ranking

Within S-rank, an international body publishes the **top ten S-ranks on Earth** — the “world-ranked,” a de-facto tier above ordinary S. Household names, hotly contested.

Working Types — loose shorthand, not a fixed set

Signatures are as varied as the people who wake with them. The trade files hunters by **what an ability does in a fight**, using an open vocabulary — a board coins a new word when none fits, and many powers blur several at once. Common examples below; there are always more (illusionists, elementalists, one-of-a-kind powers).

Type (example)	What it does	Notes
Striker	Up-close damage	The bulk of any roster.
Caster / mage	Ranged mana — bolt, flame, frost, wall	~1 in 3 combat hunters; the news image.
Archer	A signature that guides a shot	Ranged, resolved at band like any hit.
Warden / tank	Barrier & frontline	Holds a line, takes the hit. Rare (~1 in 12).
Mender	Healing by touch	Rare (~1 in 12); a C-mender out-earns a B-striker.
Sensor	Reads the field (ambush, true grade)	Detection & appraisal-adjacent.
Summoner / tamer	Calls or commands a beast	Fights at the summoner's band.
Artificer	Forges graded gear from cores	Rare; the trade's smiths.
Support tier	Miners · harvesters · porters	ANY rank; ride in under strike-team protection.

Mechanically only two functions carry a party effect — a **healing touch** and a **held barrier** — whatever the hunter is called; every other type is method and reach, resolved by rank band. Most awakened manifest one personal **signature ability**; most low-rank hunters make their living as **support**, not front-line fighting.

Gate Mechanics

A Gate is a mouth onto another dimension — its interior never resembles the place it stands. Only the awakened can enter; killing the boss clears it.

Break timers & party minimums

Grade	Break timer (from detection)	Legal minimum (combat-rated hunters)	Posting floor (total, incl. support)
E	7 days	none	8 (≥5 strike + support)
D	6 days	none	8 (waiver floor 5)
C	5 days	4	10–12
B	4 days	8	14–18
A	3 days	16 (incl. ≥1 A-rank)	24–32
S	2 days	state-directed operation	state-directed

Support crew may be any rank — they don't fight, so an E-rank can legally work a C- or B-Gate as a miner under the strike team's protection.

The rules everyone lives by

Rule	What happens
Clear window	Kill the boss → the interior holds 2 hours to loot & walk out. Overstay = lost with it.
Dungeon break	Timer lapses → the whole population pours into the street; anyone inside is expelled with it; the Gate is spent.
Exit	Leave a standing Gate through its mouth any time (except a red gate, sealed until the boss dies).
Confidence	A grade is confirmed (surveyed) or unconfirmed (remote read); an unconfirmed grade is resolved on first entry — sometimes

Threat colours (the System's read, if you are the Bearer)

Gray	White	Yellow	Orange	Red
2+ below you	1 below	your band	1 above	2+ above — flee

Interior archetypes (roll d8): Crypt · Hive · Flooded Mine · Overgrown Temple · Beast Den · Shattered City · Ashfield · Frozen Gallery.

Economy — Crystals, Cores & Cash

Beasts drop **crystals** (one per kill, at the beast's grade); elites and bosses drop **cores**. Most of a clear's crystal comes from **mining the Gate's own deposits**. Cores are never mined — only creatures drop them.

Crystal & core value

Grade	Crystal — licensed (USD)	Crystal — black market (+40%)	Core (USD, ≈2.5× crystal)	Crystal — shop (g)
E	\$150	\$210	\$375	10 g
D	\$600	\$840	\$1,500	40 g
C	\$2,500	\$3,500	\$6,250	170 g
B	\$11,000	\$15,400	\$27,500	750 g
A	\$50,000	\$70,000	\$125,000	3,400 g
S	auction-only	—	auction-only	—

Prague pays about **70%** of Chicago rates, in CZK/EUR. The black market (+40%) is a felony. The System shop only **buys** crystals for gold; there is no gold↔USD exchange.

How much a Gate yields in mined crystal

Gate grade	E	D	C	B	A	S
Avg crystals mined	~11	~21	~42	~84	~168	~336
Licensed value	~\$1.6k	~\$12.6k	~\$105k	~\$924k	~\$8.4M	auction

Freelance D-Gate contract	\$8,000–\$15,000
Freelance C-Gate contract	\$30,000–\$60,000
Freelance B-Gate contract	\$130,000–\$240,000

Hospital, per week	~one month's rent
Mender-for-hire session	~the price of a same-grade core

The Bearer's inventory & shop (pocket dimension)

The Bearer's inventory is a private **pocket dimension**: items are weightless, carried nothing, and stored or **summoned to hand anywhere — instantly, as a free action** (drawing a blade to meet an attack; the die still resolves the outcome). Stored items can't be seen, searched, or stolen — but summoning from empty air in front of witnesses is a giveaway. It holds inanimate objects only (no living things); cash is ordinary bank money, not a System good. The **shop** is a System interface — opened with /system shop anywhere, any time — buying deposits into the inventory, selling draws from it.

The System shop (gold)

Item	Gold	Item	Gold
Lesser healing potion	25 g	E-grade weapon	100 g
Standard healing potion	90 g	D-grade weapon	450 g
Greater healing potion	400 g	C-grade weapon	2,000 g
Lesser mana potion	20 g	Instant-dungeon key	500 g
Antidote	30 g	Elixir (+1 stat, max 3/stat)	5,000 g

The System — Progression Reference

Only one person on Earth has the System: he levels, grows stats, and gains quests. (For the Bearer's eyes; everyone else is fixed at their measured rank.)

Stats

Stat	Governs
Strength	Physical force — melee damage, lifting, grappling.
Agility	Speed & reaction — initiative, evasion, closing distance.
Vitality	Endurance & Health — shrugging wounds, surviving hazards.
Perception	Senses & appraisal — detection, reading a Gate's true grade.
Intelligence	Analysis & System interface — appraisal, concurrent quest capacity.

XP & leveling

Grade	E	D	C	B	A	S
Kill XP (common)	10	25	60	150	400	1000
— elite (×2) / boss (×4)	20/40	50/100	120/240	300/600	800/1600	2000/4000
Gate-clear milestone	70	150	320	700	1500	3200

To level: need $L \times 100$ XP to go from level L to L+1 ($L1 \rightarrow 2 = 100$, $L2 \rightarrow 3 = 200$...). **Underdog bonus:** kill XP **doubles for each grade the creature is above your band** (+1 grade ×2, +2 ×4, +3 ×8 ...). **Effective band** rises with level: E from start, D at 10, C at 20, B at 30, A at 40, S at 50. **Mana pool** = $20 + 5 \times (\text{level} - 1)$.

Daily quest, grants & the penalty zone

Daily quest	100 push-ups, 100 sit-ups, 10 km run, within 24 h.

Level-up grant	+3 stat points + full restore (offered — a deferred grant is a bankable full heal).
7-day streak	a Weekly Cache (loot box).
Miss the daily	a Penalty Zone — 4-hour survival at your own band, no material loot, death is death.
